**Instructions:**

The major/minor/option catalog term designator determines which catalog year requirements the student will be required to complete in order to earn that program as part of their degree. Per the Catalog Year Policy (<http://catalog.oregonstate.edu/ChapterDetail.aspx?key=9#Section3735>), the major/minor/option catalog term is determined by the term in which the student officially records their intent to complete that program with the Office of the Registrar.

A student, in consultation with their advisor, can choose to move their major/minor/option catalog term forward. This is accomplished by submitting a completed Catalog Term Declaration form with the appropriate catalog term designation.

Catalog terms can be moved forwards but not backwards in time. Additionally the student's first major/option must be in the same catalog term. Therefore a request to move the catalog term of a major forward may require that the catalog year of the primary option for that major also be moved forward (or vice versa for moving the catalog term of an option forward).
